THE ORIGIN OF PORTAPIVOT

Portapivot is a Belgian brand, created and engineered by the designers of ANYWAY doors.

ANYWAY was founded in 1995 and specializes in high-end, made-to-measure interior doors. Various international awards have put ANYWAY's products in the spotlight. After focusing exclusively on the local market in Belgium, The Netherlands and Luxembourg, it was time to meet international demands.

Since its launch in 2017, Portapivot makes the 'Room Divider' door system and its patented hinge system accessible through e-commerce. Custom-made, self-assembly kits are shipped to interior professionals, door installers and high-end carpenters across the globe.

As of 2021, Portapivot is part of Theuma Group.

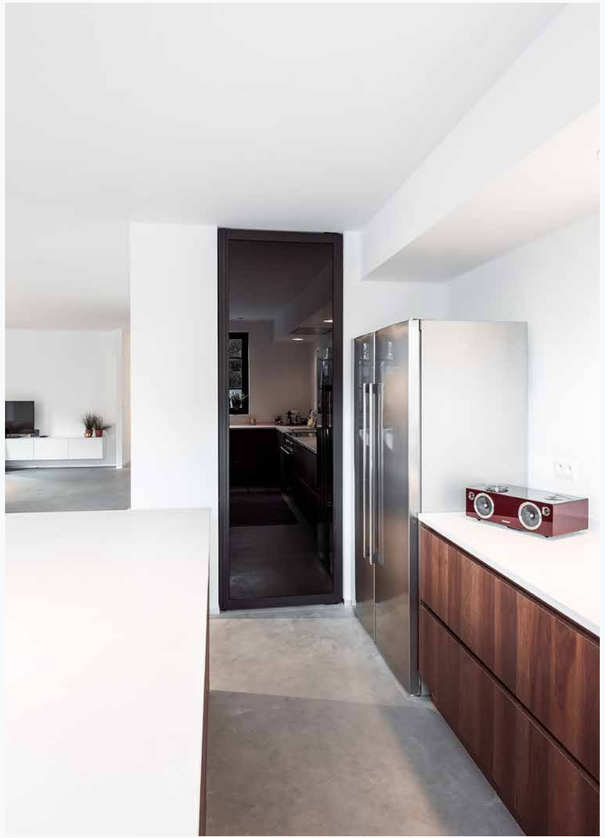
INGENIOUS HARDWARE SOLUTIONS DESIGNED TO CREATE VISUAL MASTERPIECES

At Portapivot, we combine the strength of our technology, engineering and design capabilities, with local craftsmanship all over the world.

Our process is fast, efficient and simple. Your local craftsman configures and orders the desired setup on our website. We produce the hardware and ship it with the necessary installation accessories.

Glass and other finishing sheet materials (e.g. MDF, Trespa, ...) are not included and should be purchased locally.

- Product design backed by more than 25 years of experience
- Easy assembly & installation due to B2C experience
- High-tech hardware
- Unlimited decorative finishing possibilities
- Made-to-measure sets



ANODIZED ALUMINIUM

Anodising is an electrochemical process which converts the metal surface into a decorative, durable and corrosion resistant oxide layer. This aluminium oxide is not applied to the surface like a coating or paint, but is fully integrated with the underlying aluminium substrate. This means it cannot chip or peel.

Anodized aluminium is considered environmentally safe, producing few harmful effects on land, air, or water.

- Attractive appearance whilst retaining metal character
- Durable, corrosion-resistant and colourfast
- Easy to recycle (Cradle to Cradle)
- Easy to reuse (Circular Economy)
- Low maintenance

We offer 5 different finishes: black, bronze, gold, silver and stainless steel.

STEALTHPIVOT HINGE

Portapivot's high-tech pivot hinges are to be fitted inside the door panel and therefor invisible, hence the name 'Stealth Pivot'.

Example of a Stealthpivot NL and XL hinge

Stealthpivot XL securely packaged

STEALTHPIVOT - PATENTED TECHNOLOGY

Stealthpivot is a compact and innovative pivot hinge system, that can be fitted inside virtually any door leaf. The hinge is designed to be mounted on top of a finished solid surface **without the need for any built-in fixtures**. Its high-tech comfort closure works in all swing directions and can be set up for 180° and 360°. like a carrousel. When fitted and installed, the hinge remains invisible, hence the name 'StealthPivot'.

Our hinge system makes it possible to create impressive Room Dividers up to 150 kg, that feel as light as a feather.

- **Stealthpivot NL**
  For pivot doors up to 75 kg. Features an adjustable offset axis point that can be set up from 85 mm up to 1/2.
- **Stealthpivot XL**
  For larger pivot doors up to 150 kg. Features an adjustable offset axis point that can be set up from 150 mm* up to 1/2.

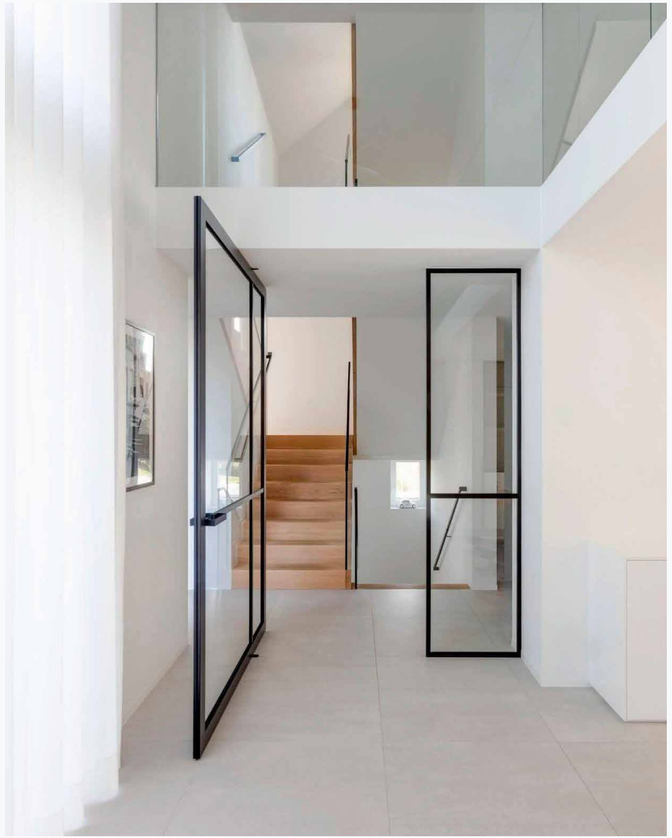
  ** The minimal axis depends on the total door width*

EN1191 – Resistance to repeated opening and closing = C5 200.000x cycles (durability tested and approved by WOOD.BE)

EASY INSTALLATION

A great deal of attention went into easy integration and installation on site, to ensure that the resulting pivot system could be used in both new and existing homes, regardless the construction. Stealthpivot hinges are always mounted on top of the finished floor and a solid or reinforced ceiling surface, without the need for any built-in fixtures.

The minimal anchoring (2 screws and plugs ± 4.5 cm deep) allows installation on any type of surface. The hinge mounts are equipped with patented 0° positioning parts. Optional magnets and 1-way accessories can be installed if necessary.



DOOR SYSTEMS

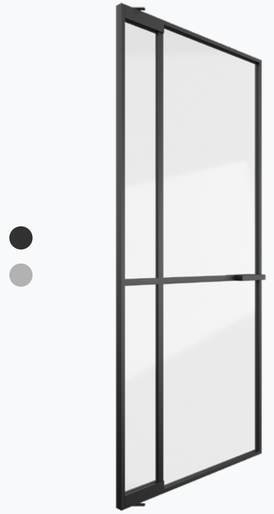
Door systems consisting of Portapivot pivot doors and Slideways sliding doors.

PORTAPIVOT 5730

Our most popular pivot door system, made with a **minimal frame of 57 x 30 mm**. The frame is made of high quality anodized aluminium and is available in five decorative finishes; black, bronze, gold, silver and stainless steel.

The frame can be fitted with any **6 or 8 mm thick tempered glass**.

Optional anodized aluminium grid profiles can be installed on top of the glass to create a personalized design.



PORTAPIVOT MINI-MAX

Minimal frame, maximal glass.

The Portapivot **Mini-Max frame** only measures **20 x 38 mm** and is **combined with a glass patch set**. This door system is available in black and silver high quality anodized aluminium.

Portapivot Mini-Max can be fitted with **8 mm thick tempered glass**.

Optional anodized aluminium grid profiles can be installed on top of the glass to create a personalized design.

PORTAPIVOT GLASS

A set of compact **glass patch fittings**, designed to fit seamlessly into any interior style. The patches are made of high quality anodized aluminium and are available in black and silver.

Portapivot Glass can be fitted with any type of **10 mm thick tempered glass**.

The glass patches come in two different sizes to integrate our StealthPivot NL or StealthPivot XL hinge.

PORTAPIVOT 4245

Anodized aluminium space frame that can be fitted with endless finishing materials such as MDF, Trespa, HPL, MDF, Corian or Hi-Macs, ceramics, lacquered or mirrored glass,...

The Portapivot 4245 anodized aluminium frame is available in three decorative finishes; black, bronze and silver.

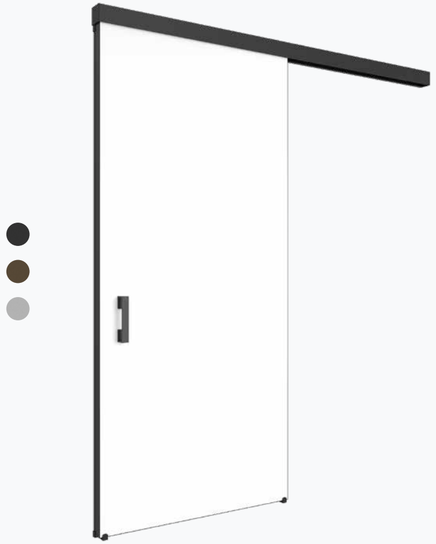
SLIDEWAYS 5730

Slideways 5730 uses a minimal aluminium frame, available in three colours; black, bronze and silver.

The frame can be fitted with any 6 or 8 mm thick tempered glass.

Our sliding doors are engineered with practical design in mind and feature soft-close technology. The aluminium rail can be mounted to the wall or to the ceiling with an optional ceiling mount profile.

Optional anodized aluminium grid profiles can be installed on top of the glass to create a personalized design.



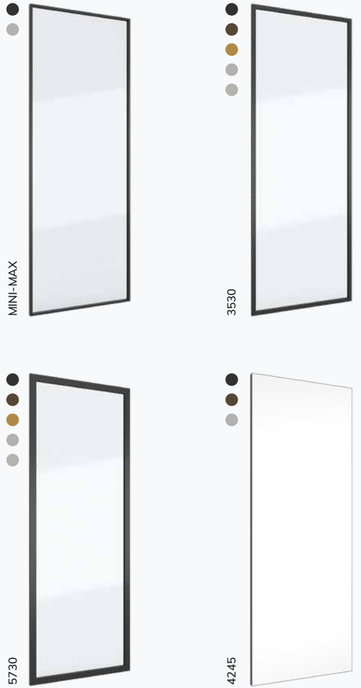
SLIDEWAYS 4245

Slideways 4245 offers an aluminium space frame that can be fitted with various finishing materials. The profile has a recess of 7,5 mm on both sides and a centre area of 30 mm. Both the frame and rail are made of high quality anodized aluminium and are available in black, bronze and silver.

Our sliding doors are engineered with practical design in mind and feature soft-close technology. The aluminium rail can be mounted to the wall or to the ceiling with an optional ceiling mount profile.

FIXED PARTITIONS

Minimal anodised aluminium profiles for fixed partitions.



FIXED PARTITION FRAMES

Portapivot offers a range of minimal anodised aluminium profiles for fixed (glass) partitions. These profile systems can be used as standalone walls or in combination with various other Portapivot and Slideways setups.

- **Fixed partition Mini-Max**
  Compatible with 8 mm glass
  Combines with Portapivot Mini-Max
- **Fixed partition 3530**
  Compatible with 6 and 8 mm glass
  Combines perfectly with any Portapivot door system
- **Fixed partition 5730**
  Compatible with 6 and 8 mm glass
  Combines with Portapivot / Slideways 5730
- **Fixed partition 4245**
  Compatible with various materials
  Combines with Portapivot / Slideways 4245

ACCESSORIES

Portapivot offers a selection of door handles and grid profiles in anodized aluminium, matching the colour of your desired door system.

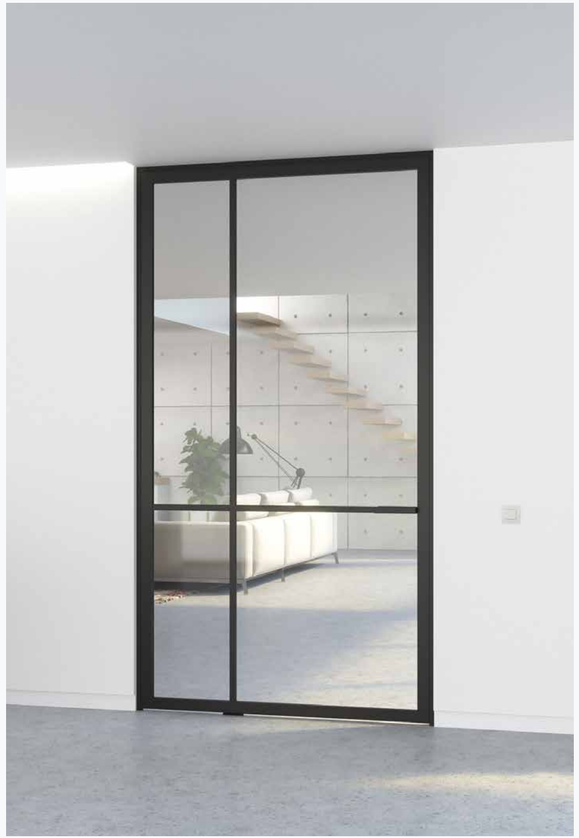
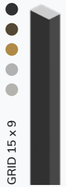
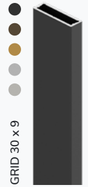
- **DG.10**
  Vertical door grip, offered in different lengths;
  200 mm - 500 mm - 750 mm - 1130 mm - full length
  Available in black, bronze, gold, silver and stainless steel
- **DG.08 - DG.11 - DG.12**
  Small modern door grip - 200 mm wide
  Can be mounted horizontal or vertical
  Available in black and silver
- **RGP**
  Vertical door grip exclusively for Portapivot Glass
  Always full length
  Available in black and silver







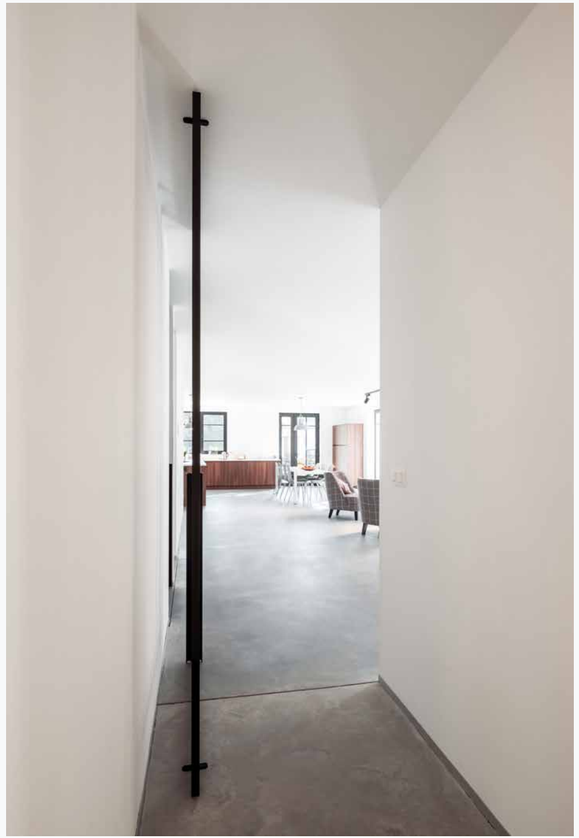
GRID PROFILES

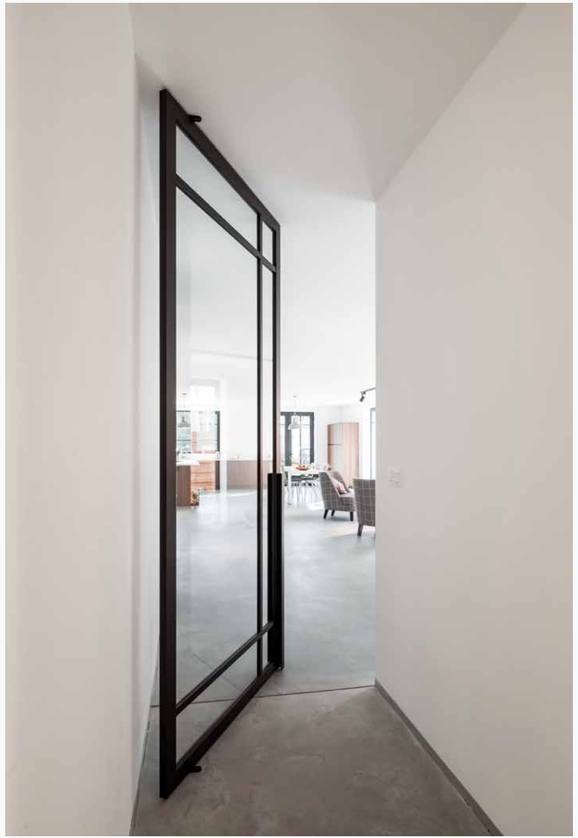
Optional anodized aluminium grid profiles compatible with Portapivot **5730** and **Mini-Max** doors systems. The grids are to be glued on top of the glass on both sides. They can be used for infinite design purposes.

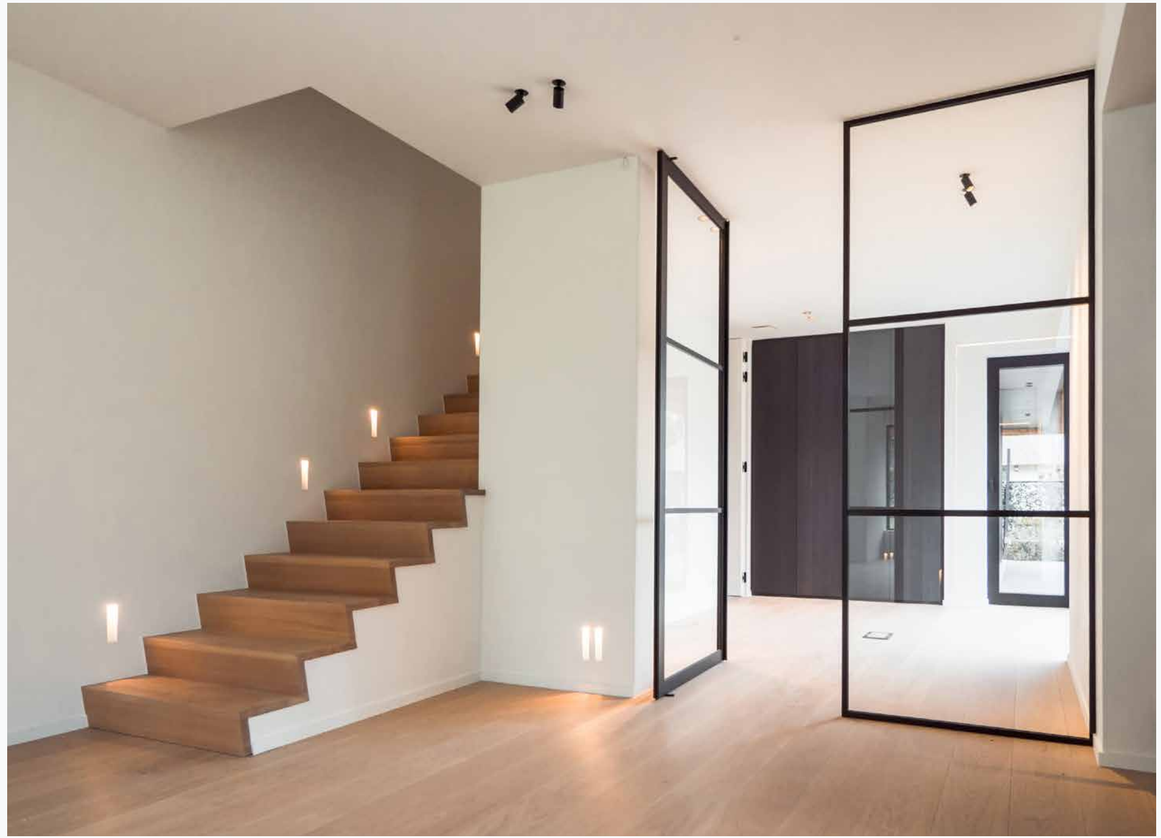
- **15 x 9 mm**
  Grid profiles, 15mm wide
- **30 x 9 mm**
  Grid profiles, 30mm wide

Available in all five finishes; black, bronze, gold, silver and stainless steel.

LOOKBOOK







Our distinctive **pivoting room dividers** have the ability to completely transform a space.
Not just by giving it a modern edge, but also by offering a modular way to open up space and letting in more light.
